The screenshot shows the Workflows app interface. At the top, there's a search bar and a 'New flow' button. Below, a table lists several flows with columns for Row name, Status, Modified, Owners, Type, and Team and channel. The flows listed are:

Row name	Status	Modified	Owners	Type	Team and channel
When an item is created or modified send approval	On	59 sec ago	[User]	Automated	N/A
Schedule a message	On	1 min ago	[User]	Instant	N/A
Forward emails to a channel	On	1 min ago	[User]	Automated	N/A
Create a task item	On	1 min ago	[User]	Instant	N/A
Save a message to OneNote	On	2 min ago	[User]	Instant	N/A

Below the table, there's a section 'Start with a popular Teams template' with four cards:

- Follow up on a message (By Microsoft) - 627083
- Schedule a reply (By Microsoft) - 257324
- Save a message to OneNote (By Microsoft) - 153877
- Create a task in Microsoft ToDo when a message starts with the word ToDo (By Microsoft Power Automate Community) - 35483

Be more productive with Microsoft Power Automate

By using Workflows, you agree to the [privacy policy](#), [terms of use](#), and [permissions](#).

Search template: Post to a channel when a webhook request is received.

The screenshot shows the Workflows app interface with a grid of templates. A red box highlights the 'Send webhook alerts to a channel' template, and a red arrow points to it from above. The templates shown are:

- Follow up on a message (By Microsoft Power Automate Community) - Instant - 1099736
- Send webhook alerts to a channel (By Microsoft Power Automate Community) - Instant - 1080577
- Schedule a reply to send at the perfect time (By Microsoft Power Automate Community) - Instant - 636741
- Send webhook alerts to a chat (By Microsoft Power Automate Community) - Instant - 176279
- Analyze emails sentiment with AI Builder and send results to Teams (By Microsoft) - Automated - 118081
- Create a task in Microsoft ToDo when a message starts with the word ToDo (By Microsoft Power Automate Community) - Automated - 90023
- Copilot Preview - Get my tasks from MS To Do and Planner (By Microsoft Power Automate Community) - Instant - 74524
- Create an Azure DevOps work item from a message (By Microsoft Power Automate Community) - Instant - 24133

Create a flow

Send webhook alerts to a channel

Flow type: Instant

Generate a webhook URL that lets anyone send external systems updates into a channel using rich adaptive cards or message cards.
